More than Milk Amsterdam (MOMA) stands for more than just milk: 'Milk is a liquid piece of landscape'. Monotonous and anonymous milk leads via large factories to a monotonous and anonymous landscape. Through a direct connection between town and countryside MOMA wants to turn this process around: tasteful and diverse milk for a beautiful and biodiverse landscape!

KIONA MALINKA TEA

Kiona is the force behind Crusio Tea and her own 'invitation-only' brand called Kiona Malinka Tea since 2018. NewWerktheater is proud to be one of the fifteen companies Kiona invited to serve tea at the highest level possible. This brand focuses on preparations, pairings, custom sourcing and refined recipes.

'I have the wish and ambition to change the way tea is perceived. With this comes transparency, direct and honest trade and unblended, unflavoured tea. It is really important to bring to light how tea is and works, and constantly moving towards exploring and improving it. I want to share everything I discover through my travels and experiments.'

– Kiona Malinka
